GIFTED LEARNERS

All About Us

Using a “school-within-a-school” model, The Apache Gifted Academy will include a self-contained gifted class at each grade level from 2nd -8th grade. Our goal is to provide a challenging curriculum and interaction with peers of similar aptitude in order for each child to reach their highest levels of learning and accomplishment. Curriculum for students who have tested gifted in any area (verbal, quantitative or nonverbal) will include both the Arizona state standards as well as gifted (P.I.) curriculum. Students will take mathematics classes at their ability level. Reading, writing and social studies will be integrated in a humanities approach.

Gifted Program Units of Study

2nd Grade
Countries & Cultures
